

If you are reading this here then you already know that ASA's ACE Coaching Certification Program is now available online.

What you may not know is exactly what you will be getting with the new ACE Online Program.

The first thing you will be getting is an easier way to become an ACE Certified Coach. No longer will you have to travel long distances to get certified. You can get certified, at any level (1,2,3 or Continuing Education), all from the comfort of your own home. All you need to get certified as an ACE Coach is a working computer with an internet connection. The ACE Online Program will allow more coaches from more teams to get certified as an ACE Coach. This will bring an even higher level of quality to the coaching and instruction that ASA Softball players are already receiving. The greater number of ACE Certified Coaches will also create a better experience for all involved in the softball experience from players, to parents, and even coaches. The benefits of the ACE Online Program do not stop there.

With the new ACE Online Program you will also have the ability to review any of the material that you have previously purchased, watched, and completed. If you have a player that needs help with fielding technique and you remember a portion of the video that discussed that issue, you can log on and go back and watch that section of the video without having to repurchase the video. You can review and rewatch any section of any video that you have already purchased and completed.

Another feature of the ACE Online Program will give you the ability to view and print your ACE Coaching Certification Certificate and Insurance Form at any time as long as you are able to access your ACE Online account. Also, each time you achieve a new certification level you will be sent an official ACE Coaching Certification Card.

So, now that you know what you will be getting with the new ACE Online Coaching Certification Program, set up your ACE Online account and get certified!
